Subject: F2F 3rd IHR course in Annecy - THANK YOU!
Date: vendredi 17 février 2012 17:03:27
Importance: High

Dear Astrid, Ana and Khin,

The face-to-face session of the 3rd IHR implementation course ended last week. Since we started working on this project in 2008, you have contributed to the development and continuous improvement of the curriculum, and if there is always space for improvement, what we have collectively achieved so far is definitely promising.

We (the WHO/HRT team) want to thank you all - once again - for your commitment and efforts, as well as for your flexibility in collaborating with our team and other WHO experts.

Our director (Dr Isabelle Nuttall) sent us yesterday a congratulations message stating that she "only heard enthusiastic positive colleagues coming back from Veyrier du Lac!", I think these congratulations should be shared with you all, as you all played a great role on the success of this course.

Once we compile and analyze the evaluation data we collected on each session delivered, we will be able to share with you all. This data, together with a summary of the feedback given by facilitators, and main observations made by our team will be discussed as relevant, at WHO level as well as with collaborating institutions.

Our best wishes and kind regards from Lyon,

Paula
